DAYCARE CLOSURE POLICY FOR INCLEMENT WEATHER

In the event that we experience snow or ice this winter please understand that we may need to close the daycare for safety reasons. Should that happen, we will follow the local school closure schedule. If local schools close, we will also. We try very hard to always consider our clients needs, but we must also be mindful of our wonderful staff. If you need daycare and you're not sure if we are going to be open or not, call the school. We will put a message on the answering machine if we are considering being closed the next day, or if we anticipate a late opening time. Rarely in the past decade have we had to close for weather, but it has happened once or twice.

Thank you for your understanding....
